

The Umoja Village: A strategic alliance of progressive Blacks and African Americans united with a common goal established to leverage its own resources and other identified resources to impact positive change within the communities it serves.

MISSION: To unite as many predominately Black and African American clubs, organizations, churches, businesses, and individuals (*while still maintaining their autonomy*) to utilize its own resources (and other external resources) for the betterment of those typically disenfranchised, at risk, or subjected to inequalities as a result of racial discrimination and bias. To amass its collective resources to hold *itself* and local, regional, and national elected officials and leaders accountable to ensure a high quality of life in every aspect of everyday living.

Infrastructure: Each of the above sectors will have professional advisers leading teams, to establish a resource center providing services in all the areas above and others deemed necessary.
